

Open Ended Homework - Year 6 - Spring Term 2 2020

Maths at home

- If on a journey, count how many lorries you pass. Use this information to create a bar chart.
- Exercise and time your pulse rate repeatedly. Create a line graph of the results.
- Continue to practise orally rehearsing multiplication tables – practise online : <https://www.timestables.co.uk/>

Homework will be set each week using MyMaths. Each child will have an individual login.

Spelling and grammar at home

You should continue to practise the year 5/6 spelling words – orally reciting the spellings and putting them into sentences will support your retention skills of the spelling patterns.

This term will be focusing on grammar skills -

https://www.theschoolrun.com/english/grammar?gclid=EAlaIQobChMI3Imggp7q5wIVxLHtCh3mbA-3EAAYASAAEgK_5vD_BwE

Reading at home

You should read a variety of texts e.g. recipes, newspapers, online blogs, Newsround, narratives and non-fiction texts. Use the suggested comprehension questions to ensure you understand what you are reading. If you come across an unfamiliar word, find the meaning of the word through dictionaries or discussion with an adult.

Science

This half term, we will be learning about **Living things in their habitats**.

Key Vocabulary: *habitat, animal, classifying, identification*

Learning at home ideas:

- Look at living things in their natural habitats around the area. Take photos, draw pictures etc.
- A useful website - <https://www.nhm.ac.uk/schools/teaching-resources/living-things-and-their-habitats-resources.html>

Geography

This half term, we will be continuing our learning about **Rivers**.

Key Vocabulary: *erosion, deposition, weathering, coastal*

Learning at home ideas:

- Use google maps to find rivers in the UK.
- When visiting a river, take photos of the wild life.
- A useful website - <https://www.theschoolrun.com/homework-help/rivers>

History

This half term, we are continuing our learning about the **Mayans**.

Key Vocabulary: *ancient, Maya, civilisation, remains, discover, explore*

Learning at home ideas:

- Find out how the Mayans calculated mathematically.
- Find out if the Mayans were affected by any other historical era.
- A useful website - <https://www.bbc.co.uk/bitesize/topics/zq6svcv>

French

We are learning '**All about France**'.

Learning at home ideas:

- Continue to practise numbers, colours and how to say hello!
- Practise words learnt in school - <https://www.bbc.co.uk/bitesize/subjects/z39d7ty>

ICT

In school we are always thinking about keeping safe when online.

Learning ideas at home:

- Create an internet safety poster.

We would love you to share any learning and work done at home with us in school.
